

REMARKS

By the present Preliminary Amendment, the title has been set forth so that it is consistent with that provided in the Declaration, a new abstract has been provided which is more in-line with the provisions in 37 C.F.R. §1.72(b) and MPEP §608.01(b), and editorial revisions have been made throughout the specification. In addition, the original claims have been replaced with new claims 14-22 in order to avoid all multiple dependency and to present subject matter supported by the specification. It is to be understood that the revisions to the claims are solely for formalistic purposes and not with regard to patentability and that applicants reserve the right to pursue claims directed to other aspects of the invention encompassed by the original multiple dependent claims or described in the specification.

Entry of the instant Preliminary Amendment and favorable consideration on the merits are respectfully requested.

Should the Examiner have any questions concerning the subject application, the Examiner is invited to contact the undersigned attorney at the number provided below.

Respectfully submitted,
